FOR THE GOALS

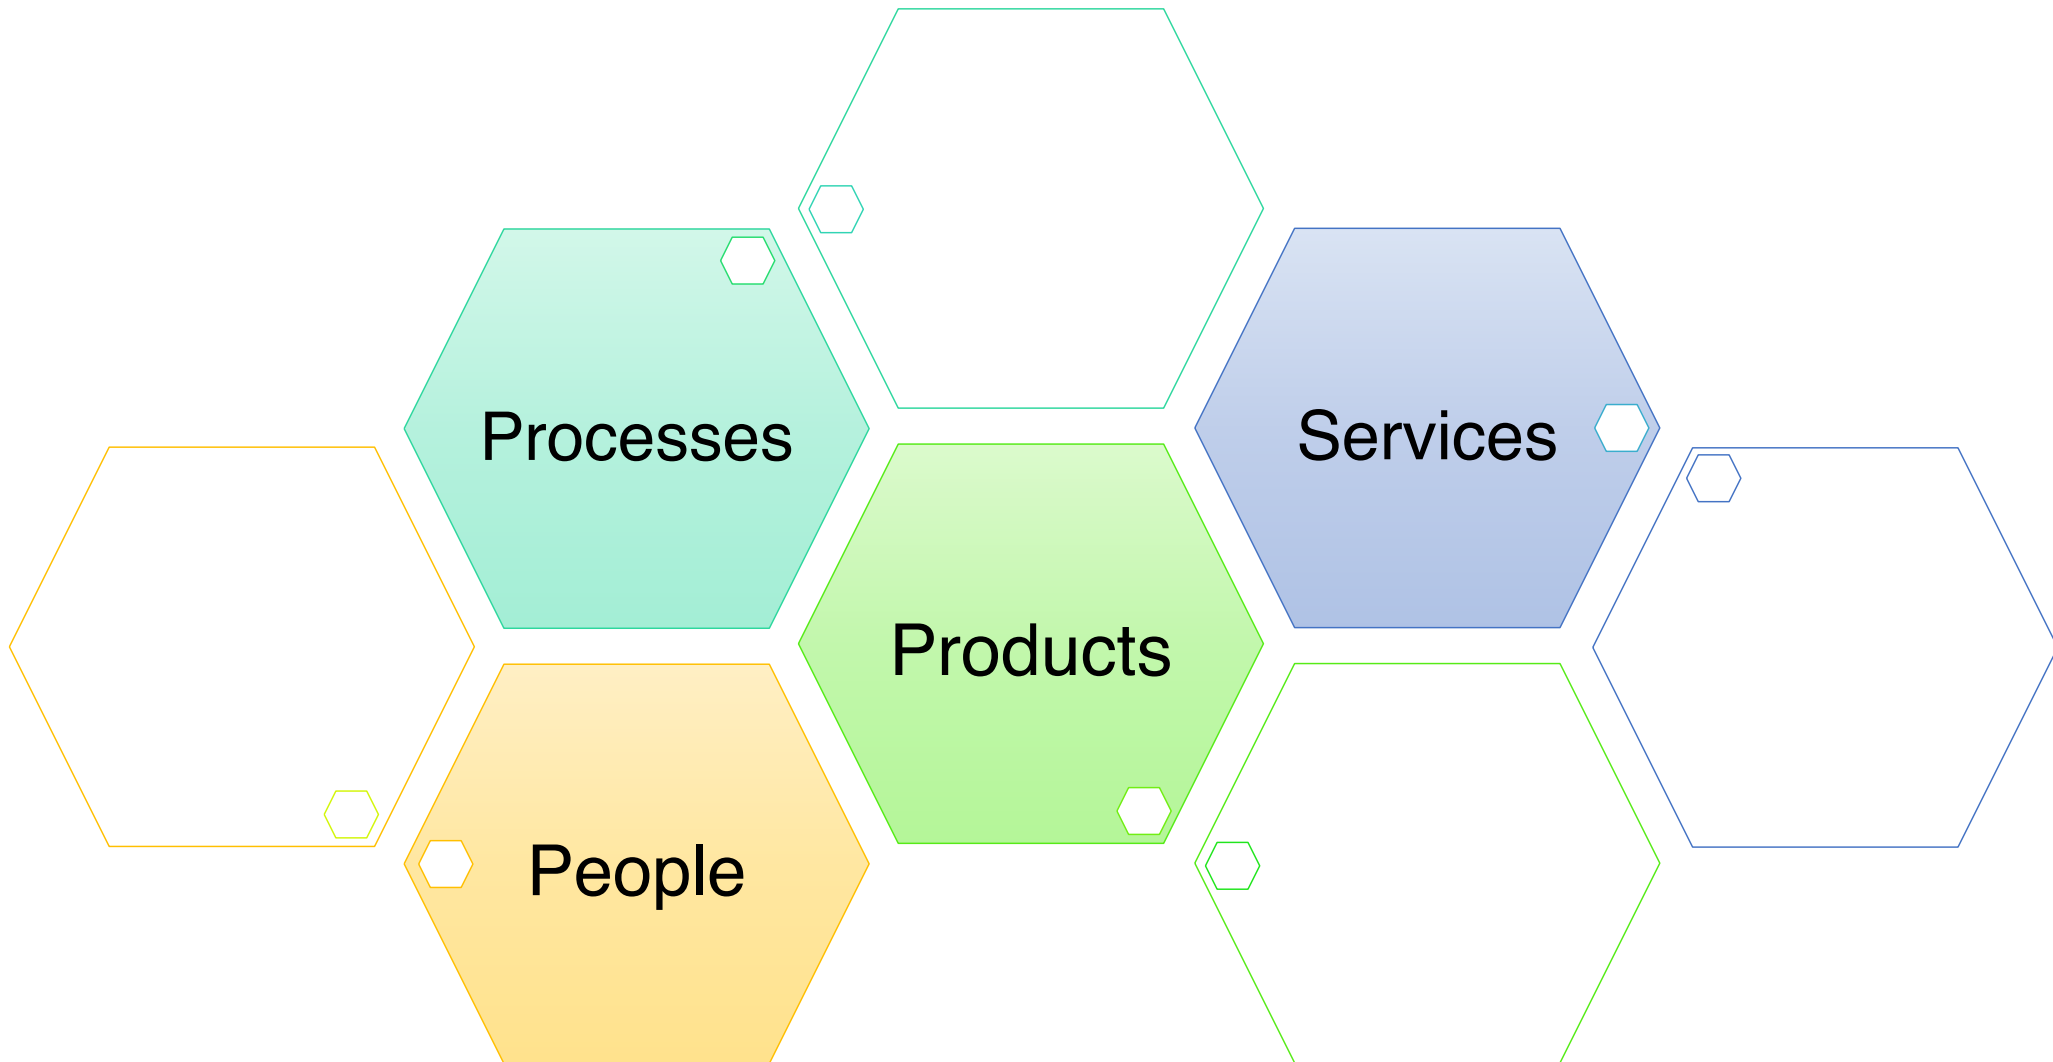

Vision

- **Developing IT consultancy skills** by introducing the **lifecycle of IT consultancy projects** and **best practices**.
- **Prepare students for IT consultancy jobs** in a **VUCA world** that involve **business and technology analysis**, **change management**, **implementation**, **performance management**, and **sustainable transformation**.

Goals

- [?] Showcase the end-to-end consulting process in the technology space.**
- [?] Understand typical roles in IT consulting and their responsibilities.
- [?] Expose students to the classical literature of the profession.**
- [?] Prepare solutions through case studies, utilising technical expertise and experience.
- [?] Developing the skills needed to engage, understand, and advise executive and business stakeholders.**
- [?] Apply course theories and principles to provide consulting services in real world contexts.

The IT Consultancy Ecosystem
